- Web Technologies

PROJECTS

Here are some of the projects I've worked on. For a more detailed look at my work, projects, and experience, please visit my website:

<https://marcelitotech.com/>

Nerdflo : Designed UI/UX and developed the web and mobile application.

College Loan Pro : Designed UI/UX and developed the web application.

College Aid Plan : Designed UI/UX and developed the web application.

Navagis Websites : Developed and maintained websites.

Access Benefit Sharing (ABSCH): Designed UI/UX and developed the web application.

CRM for ABSCH: Designed UI/UX and developed the web application.

Farm Konekt: Designed UI/UX and developed the web application.

Farm Konekt Website: Led UI/UX design and maintained the web application.

Student Portal: Designed UI/UX and developed the web application.

PSU Registrar Website: Designed UI/UX and developed the web application.

ISTOPP Web App (Information System on Transport Operations in Puerto Princesa): Developed the web application and integrated data.

Housination: Developed the web application.

Grate New Castle: Developed and maintained the web application.

Scottbros: Maintained the web application.

TL Competitions: Developed the web application.

Australia Workers: Developed the web application.

NextGen Sports Camp: Developed and maintained the web application.

Babylon Durham: Maintained the web application.

Basilico: Developed the web application.

Carwan Gallery: Maintained the web application.

In addition to these, I have worked on more than 10 other projects including data pipelines(For Data Engineering Role at Palawan Pawnshop) that are confidential.

For more details on these projects and my professional journey, you can visit my portfolio at <https://marcelitotech.com/>.
